

Welcome to a new edition of the QROWD quarterly newsletter.

November 2018

Good afternoon,

The past few months have been interesting and busy for the QROWD project and partners. We look forward to telling you about our top highlights in this issue. These include: the Human Factor in Big Data webinar, our participation in the workshop IoT Open Data Access to Advance Mobility in European Cities, and in the Smart City Expo World Congress 2018.

We've also been busy spreading the word in Trento about smart city services and mobile applications, and later with our third QROWDLab, which will render new results for the Trento pilot. Now, we are heading for the Smart City Expo World Congress, in Barcelona.

In this issue:

- IoT Open Data Access to Advance Mobility in European Cities
- BDV / QROWD Webinar: The Human Factor in Big Data
- QROWD at the Smart City Expo World Congress 2018, Barcelona
- TrentoSmartCityLabs
- QROWDLab 3
- Introducing the Virtual City Explorer – VCE
- Upcoming events (December 2018- January 2019)

IoT Open Data Access to Advance Mobility in European Cities

Read about QROWD's contribution in the closing panel in the workshop IoT Open Data Access to advance mobility in European cities [here](#).

BDV / QROWD Webinar: The Human Factor in Big Data

QROWD coordinator, Elena Simperl (University of Southampton) provided an overview and technical details on how human interaction and crowdsourcing help in different steps of the data value chain. Read about it [here](#).

QROWD at the Smart City Expo World Congress 2018, Barcelona

Giacomo Fioroni, Head of the Smart City Office of our QROWD partner, the Municipality of Trento, is delivering a talk at the Expo World Congress in Barcelona on one of the city's smart solutions: how to calculate the modal split. More information [here](#).

TrentoSmartCityLabs

TrentoSmartCityLabs aim to improve the Smart Mobility of the city of Trento, Italy. Members from the municipality go out around the city talking to people and handing out informative flyers on smart services and mobile applications. To hear more about their work, and QROWD's contribution to the city, read about them [here](#).

QROWDLab 3

The QROWD Laboratory is one of the smart city project activities organised by the city of Trento where citizens who want to contribute use the iLog application for the collection of mobility data. The third QrowdLab took place in Trento in October. You can read more about the highlights [here](#).

Introducing the Virtual City Explorer - VCE

One of the most innovative products that the QROWD project offers is that of the Virtual City Explorer (VCE). This crowdsourced solution for mobility infrastructure maps allows identification of city features of interest, and this information is then modelled onto the virtual map which anyone can see. You can read more about it [here](#).

---O---

Upcoming QROWD Events

ICT 2018 Imagine Digital – Connect Europe

Vienna, Austria
4-6 December 2018

<https://ec.europa.eu/digital-single-market/en/events/ict-2018-imagine-digital-connect-europe>

Connected Smart Cities Conference 2019

Brussels, Belgium
17 January 2019

https://ec.europa.eu/isa2/events/connected-smart-cities-conference-2019_en

ICSCI 2019: 21st International Conference on Smart Cities and Infrastructure

Paris, France
24 - 25 January, 2019

<https://waset.org/conference/2019/01/paris/ICSCI>

21st International Conference on Smart Cities and Urban CSCU 2019

London, United Kingdom
21 - 22 January, 2019

<https://waset.org/conference/2019/01/london/icscu>

Transport Ticketing Global

London, United Kingdom
29 January 2019

<https://www.transport-ticketing.com/>

We hope you have enjoyed reading about our highlights from the past few months and thank you for reading! Stay tuned for our next newsletter in January 2019 where you can find more about the events we are looking forward to, such as the Connected Smart Cities Conference 2019.

Sincerely yours,

The QROWD team
